As legend has it, the ten lords of the great realms of Terria were born from a stone. Its power was passed down to the ten lords, who built the grand empires that have stood for ages. However, ten years ago, one of the lords disappeared. His people swore that he must be a traitor, and the hidden secrets of the stone were lost to the world. Yet, one day, an old man who was the last of the lords of Terria appeared before the court of the king. He declared that the stone had been entrusted to him by the lord of the Demon Realm, and that the Demon King would transform the stone into ten lords. It was clear that this was a trick to gather ten lords to the Demon Realm, but the last lord of Terria was unwilling to leave. In that moment, the king ordered that the ten lords be betrayed to be killed. Thus, the ten lords of the great realms of Terria were, one by one, captured and decapitated, transforming them into bloodthirsty monsters. All of the lords save one. They thought their blood was washed and their heads were buried in the ground forever. However, one day, the last lord of Terria appeared before the court of the king. The king was amazed at the power of the blood of a lord of Terria. To show their gratitude, the king commanded that the last lord be kept in a suspended animation machine. Thus, the last lord of Terria was kept in a crystal cylinder. Ten years have passed since then. The power of the undead is growing, and the twenty-odd lords of the Demon Realm begin to stir. The king and his eight generals must unite and search for a way to destroy the lords of Terria and the Demon Realm, lest their lands be destroyed. Are you willing to wield power and lead others in the name of Terria? ----- ■ Online Feature There are the online features of Elden Ring Activation Code Game. ■ Online Match In order to play online, you will need to invite friends. 1. I like the deep storyline, I like the fact that every time I start the game I have a different experience. 2. It's a great game, I'll definitely have to play it again. 3. Some things are good, some are bad. The characters are fun to be with, but sometimes they are just too OP. Also the new weapons and abilities are a bit OP. What I would do is have some kind of balance, I think having about 4 times a month/day where you'll get a character you'll have to train hard could be a good idea. 4. The new DLC looks good, I hope they add more, maybe some dungeons and quests. 5. I'm tired of this. There's not much incentive to keep playing this game. I got sick of it. I'm sick of this game, I'm sick of killing things, I'm sick of the enemy UI being this annoying. I'm sick of the characters: the main character is annoying, the other characters are hardly any fun to be with and no fun to be with at all. I'm sick of everything, I'm sick of this game. 6. It's pretty much still the same game, maybe some fixes for the new DLC. Please look at the DLC, because the game still needs some fixes. It's pretty much the same game as always, I like most of it, but the difficulty is just stupid and I'd like to have a bit more of the story. Maybe some fixes for the new DLC, such as fixing a bug I ran into where every character seemed to have the same stats as every other character and some changes to the story so that the plot is more understandable and there are less things that have to be skipped over. 7. It's an RPG, but it's not like any RPG I've played before, that's a shame. It's a shame that for the new DLC, they can't just finish making the whole game as a paid expansion pack where you can buy everything instead of getting just the DLC. 8. The story is well done, it's one of the best story-driven RPGs out there right now, at least as far as playing through some of it. ♡ bff6bb2d33
