FIFA is a team-based game that allows players to participate in authentic soccer competitions featuring real players, teams and stadiums around the world. The game has sold over 30 million copies and received numerous accolades including over 70 Game of the Year awards, and millions of fans play it every day. What's new in FIFA 20? FIFA 20 includes significant innovations across the core game modes: 1. FUT Champions: The biggest FIFA game mode in the series so far launches as the Ultimate Team Champions League with the top 64 teams from FIFA 19, as well as 12 all-new teams. Fans can now compete in new tournament formats, spanning the entire world, to climb the podium. 2. FUT Seasons: The backbone of the game mode is FUT Seasons, which introduces a brand-new structure based on the current international football calendar. Each competition will last a short amount of time and consist of qualifiers, a group phase, and a knockout phase. FUT Seasons will feature new cards, including improved XP and daily bonuses. 3. Superstar Class: The Superstar system has undergone a rework in FIFA 20 and players will now earn their rating based on a composite of all their attributes throughout a season, in addition to their strengths and weaknesses as demonstrated by specific gameplay actions. New attributes will come into play, like the new Pro-Keeper rating, which determines a player's off-the-ball reading and reaction. This new system will reward different styles and set up players to be picked and used by soccer managers. 4. FIFA Ultimate Team: FIFA Ultimate Team is back with a new user interface and a wealth of new content. Players can now level up their player cards in order to create their own dream team of players using a catalogue of over 600 existing and legendary players from the game's history. Users can build their teams however they want with new gameplay mechanics like direct control of the squad, new Quick Builds, Draft cards, Seasons Drafts, and Packs. 5. Team of the Year: When it comes to team building, big performances and tactical mastery will play an important role in team selection, so the newly expanded Team of the Year mode is focused on players who have made a significant impact across the game modes. In addition, all these new players will now be available in the game's all-new Legendary Draft, where players can choose from the biggest stars.
